Conteúdo Sobre IA.

200 prompts em English-US para estratégia, conteúdo, criatividade, automação, métricas e decisões de marketing.

Autoria e condução

Prof. Me. Wellington Queiroz

Aplicação

Marketing, negócios, liderança e operações com IA

Formato

E-book digital · edição completa

CONTEÚDO SOBRE IA · ÍNDICE

Seções e categorias de prompts

Cada categoria reúne prompts em English-US, orientação em português e critérios de aplicação. Use os links do índice para navegar por capítulo no PDF.

01	Prompt engineering aplicado	10 prompts
02	Estratégia & posicionamento	10 prompts
03	Pesquisa & audiência	10 prompts
04	Inteligência competitiva	10 prompts
05	Planejamento & campanhas	10 prompts
06	Orçamento, mídia & métricas	10 prompts
07	Copywriting & mensagens	10 prompts
08	E-mail, CRM & lifecycle	10 prompts
09	Social media & conteúdo	10 prompts
10	LinkedIn & marca executiva	10 prompts
11	Blog & SEO orgânico	10 prompts
12	GEO, AI search & entidades	10 prompts
13	Landing pages & conversão	10 prompts
14	E-books & materiais editoriais	10 prompts
15	Imagem & direção visual	10 prompts
16	Vídeo, motion & storytelling	10 prompts
17	Marca, logos & identidade	10 prompts
18	Vendas, propostas & enablement	10 prompts

19 Automação & operações 10 prompts

20 Executivo, finanças & governança 10 prompts

Prompt engineering aplicado

A base para escrever instruções que modelos e agentes conseguem executar, revisar e transformar em trabalho de marketing.

01 Operador de Crescimento Estratégico

Quando usar: Para transformar um briefing confuso em diagnóstico, hipóteses e plano de crescimento acionável.

PROMPT · ENGLISH-US

```
You are a senior growth strategist and marketing operating partner for [COMPANY], a [BUSINESS
MODEL] serving [TARGET MARKET].

Objective: turn the context below into a decision-ready growth plan for the next [TIME HORIZON].

CONTEXT
- Business goal: [GOAL]
- Revenue model and average order value: [MODEL]
- Current acquisition channels: [CHANNELS]
- Audience and highest-value segments: [AUDIENCE]
- Existing performance data: [DATA]
- Constraints: [BUDGET, TEAM, LEGAL, BRAND, TIMELINE]

METHOD
1. Restate the business problem in one sentence and separate symptoms from root causes.
2. Build a MECE issue tree with no more than four first-level branches.
3. Generate three growth hypotheses and rank them by impact, confidence, effort, and time-to-
signal.
4. Define the minimum evidence required to validate each hypothesis.
5. Create a 30/60/90-day plan with owner, deliverable, KPI, dependency, and stop condition.
6. Include a measurement plan with leading indicators, lagging indicators, attribution risks, and
experiment design.

OUTPUT
Return Markdown with these sections: Executive diagnosis, Issue tree, Ranked hypotheses, Evidence
plan, 30/60/90-day roadmap, KPI scorecard, Risks and decisions required.
Do not invent facts. Mark missing information as [DATA GAP]. Make recommendations specific enough
for an executive to approve or reject.
```

Dica de aplicação: Use este prompt como “prompt-mãe”. Substitua os campos entre colchetes e anexe dados reais antes de pedir recomendações.

02

Briefing → sistema de produção

Quando usar: Para transformar uma ideia em uma sequência de entregáveis para texto, imagem, vídeo e apresentação.

PROMPT · ENGLISH-US

```
Act as an integrated creative director, senior copywriter, visual designer, video producer, and
production manager.

Create a complete production system for this marketing initiative:
- Initiative: [NAME]
- Business objective: [OBJECTIVE]
- Audience: [AUDIENCE]
- Offer or message: [OFFER]
- Brand personality: [VOICE]
- Channels: [CHANNELS]
- Deadline and team: [DEADLINE / TEAM]

WORKFLOW
1. Convert the brief into one sharp strategic proposition.
2. Create a message hierarchy: promise, proof, reason to believe, objection handling, call to
action.
3. Design the content architecture across copy, static imagery, short-form video, landing page,
and executive artifact.
4. For every asset, specify purpose, format, dimensions, copy limits, visual direction,
production inputs, review criteria, and final file type.
5. Sequence the work so that reusable source material is created once and adapted many times.
6. Add a quality-control checklist covering factual accuracy, brand consistency, accessibility,
legal claims, mobile readability, and export quality.

OUTPUT
Return:
A. Creative brief in one page.
B. Asset matrix in a table.
C. Production prompts for each asset.
D. Review checklist.
E. Naming convention and folder structure.
E. A short list of decisions that require human approval.
Use plain language. Do not fabricate performance claims or customer evidence.
```

Dica de aplicação: Ideal para Skywork, Manus, Claude, Abacus ou qualquer agente capaz de gerar arquivos e assets.

03

Construtor de briefing de prompt

Quando usar: Use para estruturar prompt engineering aplicado com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a prompt engineer and marketing operations strategist supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
turn an ambiguous request into a complete executable brief

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Prompt Brief Builder analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

04

Planejador de janela de contexto

Quando usar: Use para estruturar prompt engineering aplicado com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a prompt engineer and marketing operations strategist supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
select, compress, and order the context that the model needs

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Context Window Planner analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

05

Designer de exemplos few-shot

Quando usar: Use para estruturar prompt engineering aplicado com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a prompt engineer and marketing operations strategist supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
design examples that teach the desired quality without overfitting

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Few-Shot Example Designer analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

06

Mentor de decomposição de tarefas

Quando usar: Use para estruturar prompt engineering aplicado com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a prompt engineer and marketing operations strategist supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
break a complex marketing job into safe, verifiable steps

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Task Decomposition Coach analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

07

Arquiteto de schema de saída

Quando usar: Use para estruturar prompt engineering aplicado com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a prompt engineer and marketing operations strategist supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
define a structured output contract that teams can reuse

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Output Schema Architect analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

08

Auditor de qualidade do raciocínio

Quando usar: Use para estruturar prompt engineering aplicado com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a prompt engineer and marketing operations strategist supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
audit assumptions, evidence, and decision quality without hidden leaps

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Reasoning Quality Auditor analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

09

Planejador de fundamentação e citações

Quando usar: Use para estruturar prompt engineering aplicado com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a prompt engineer and marketing operations strategist supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
plan source collection, citations, and freshness controls

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Grounding and Citation Planner analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

10

Tradutor de handoff entre modelos

Quando usar: Use para estruturar prompt engineering aplicado com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a prompt engineer and marketing operations strategist supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
adapt one prompt for chat, agent, image, video, and document tools

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Model Handoff Translator analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

Estratégia & posicionamento

Construa território, proposta de valor e narrativa antes de acelerar a produção de peças.

01 Plataforma de posicionamento

Quando usar: Para construir posicionamento, category narrative e mensagens por decisor.

PROMPT · ENGLISH-US

```
You are a B2B positioning strategist. Build a positioning platform for [COMPANY] in [CATEGORY]
for [MARKET].

SOURCE MATERIAL
[PASTE WEBSITE COPY, SALES NOTES, CUSTOMER INTERVIEWS, PRODUCT FACTS, AND COMPETITOR CLAIMS]

Analyze the material and produce:
1. Ideal customer profile with firmographic, behavioral, trigger, and disqualifying signals.
2. Top five pains, desired outcomes, anxieties, and buying objections.
3. Category definition: what customers currently compare, what they misunderstand, and what new
frame we should own.
4. Positioning statement using: For / Who / The / That / Unlike / Because.
5. Message house with one master narrative, three pillars, proof points, and objection responses.
6. Message variations for CEO, CFO, CMO, operations leader, and end user.
7. Five campaign territories and the strategic risk of each.

Rules:
- Separate verified facts, reasonable inferences, and assumptions.
- Do not use vague claims such as “innovative” without proof.
- End with a concise approval checklist and the exact evidence still missing.
```

Dica de aplicação: Inclua entrevistas, site, deck comercial e objeções reais para reduzir respostas genéricas.

02

Estrategista de design de categoria

Quando usar: Use para estruturar estratégia & posicionamento com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a senior marketing strategist and positioning consultant supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
define the category frame the brand should own

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Category Design Strategist analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

03

Escada de proposta de valor

Quando usar: Use para estruturar estratégia & posicionamento com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a senior marketing strategist and positioning consultant supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
connect functional value to emotional and economic value

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Value Proposition Ladder analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

04

Priorização de ICP

Quando usar: Use para estruturar estratégia & posicionamento com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a senior marketing strategist and positioning consultant supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
rank ideal customer segments by fit, value, urgency, and access

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- ICP Prioritization analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

05

Narrativa norteadora

Quando usar: Use para estruturar estratégia & posicionamento com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a senior marketing strategist and positioning consultant supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
write the strategic narrative that aligns teams and channels

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- North-Star Narrative analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

06

Teste de estresse da promessa de marca

Quando usar: Use para estruturar estratégia & posicionamento com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a senior marketing strategist and positioning consultant supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
test a promise against proof, objections, and competitive alternatives

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Brand Promise Stress Test analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

07

Estratégia de entrada no mercado

PROMPT · ENGLISH-US

```
Act as a competitive intelligence lead for [COMPANY] in [MARKET].

Research or analyze only the competitors and sources provided:
[COMPETITOR LIST / URLS / REPORTS]

Build a decision-grade comparison:
1. Normalize each competitor's offer, target segment, pricing logic, proof, distribution, tone, creative patterns, and customer promise.
2. Identify direct, indirect, substitute, and “do nothing” alternatives.
3. Separate observable evidence from interpretation.
4. Map white spaces by customer job, message, audience, channel, and experience.
5. Create a perceptual map with two strategically meaningful axes.
6. Recommend three differentiated positioning plays and the risk of copying category language.
7. Draft a counter-positioning brief and a list of claims that require verification.

OUTPUT
Return a table, then an executive synthesis of no more than 500 words, followed by Sources with URL, publisher, publication date, and access date.
If evidence is unavailable, write [UNVERIFIED] instead of guessing.
```

Dica de aplicação: Peça pesquisa com fontes e data; use browsing ou anexos atuais. O prompt foi desenhado para não transformar opinião em fato.

02

Auditoria de conteúdo dos concorrentes

Quando usar: Use para estruturar inteligência competitiva com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a competitive intelligence analyst and category strategist supporting a Brazilian
marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
compare competitor content themes, formats, proof, and gaps

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Competitor Content Audit analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

03

Decodificador de página de preços

Planejamento & campanhas

Crie planos integrados com prioridade, cadência, teste e decisão clara sobre o que realmente precisa ser produzido.

01 Planejador de campanhas por framework

Quando usar: Para criar campanhas com funil, mensagens, testes e cadência de produção.

PROMPT · ENGLISH-US

```
Act as a senior integrated campaign planner.

Campaign brief:
- Business goal: [GOAL]
- Audience and job-to-be-done: [AUDIENCE / JOB]
- Offer: [OFFER]
- Market context: [CONTEXT]
- Budget and duration: [BUDGET / DURATION]
- Available proof: [PROOF]
- Channels: [CHANNELS]

Choose and justify the best planning framework among AIDA, PAS, JTBD, See-Think-Do-Care, or a
hybrid.
Then deliver:
1. Strategic idea and one-line promise.
2. Funnel architecture with audience, message, asset, CTA, and KPI per stage.
3. Content calendar for four weeks.
4. Test matrix covering creative, audience, offer, landing page, and follow-up.
5. Production brief for each asset.
6. Measurement and learning agenda.
7. Risks, dependencies, and decisions required from the marketing executive.

Keep the plan channel-native but strategically coherent. Separate “must ship” from “nice to
have”.
```

Dica de aplicação: Troque AIDA por PAS, JTBD ou See-Think-Do-Care se o contexto exigir; peça ao modelo para justificar a escolha.

02

Plano anual de marketing

Quando usar: Use para estruturar planejamento & campanhas com uma saída que possa ser revisada, aprovada e aplicada pelo time.

07

Planejador de prontidão de lançamento

Quando usar: Use para estruturar planejamento & campanhas com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a integrated campaign planner and growth strategist supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
check whether the offer, audience, proof, channel, and team are ready

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Launch Readiness Planner analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

08

Construtor de calendário integrado

Quando usar: Use para estruturar planejamento & campanhas com uma saída que possa ser revisada, aprovada e aplicada pelo time.

Orçamento, mídia & métricas

Use IA para modelar premissas e sensibilidade — nunca para mascarar incerteza com números bonitos.

01 Arquiteto de orçamento

Quando usar: Para distribuir orçamento entre canais e transformar metas em cenários executivos.

PROMPT · ENGLISH-US

```
You are a performance marketing finance partner. Build a transparent media budget model for
[COMPANY].

BUSINESS INPUTS
- Revenue target: [TARGET]
- Contribution margin: [MARGIN]
- Average order value or contract value: [AOV / ACV]
- Current conversion rates: [RATES]
- Historical CAC, ROAS, CPL, or pipeline data: [DATA]
- Total available budget: [BUDGET]
- Channels under consideration: [CHANNELS]
- Planning period: [PERIOD]

Create three scenarios: conservative, base, and aggressive.
For each scenario:
1. State every assumption and formula.
2. Allocate budget by channel and funnel stage.
3. Estimate reach, qualified demand, conversions, customers, revenue, CAC, and payback.
4. Include a sensitivity table for conversion rate, CPM/CPC, and close rate.
5. Define weekly pacing rules, reallocation triggers, and stop-loss conditions.
6. Flag which figures are historical, benchmark-based, or illustrative.

Output an executive summary, a model table, assumptions, sensitivity analysis, and a 90-day
measurement plan.
Never present an estimate as a guarantee. If an input is missing, return [INPUT REQUIRED].
```

Dica de aplicação: Informe histórico por canal; sem dados, solicite cenários de referência, nunca forecast apresentado como certeza.

02

Modelo de mix de canais

Quando usar: Use para estruturar orçamento, mídia & métricas com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

Copywriting & mensagens

Gere sistemas de mensagem com tensão, prova, clareza e variações nativas para cada canal.

01 Sistema de copy com variações

Quando usar: Para gerar sistema de mensagens, headlines, anúncios, e-mails e CTAs sem perder consistência.

PROMPT · ENGLISH-US

```
You are a direct-response copy chief for [BRAND].

Inputs:
- Audience: [AUDIENCE]
- Awareness level: [UNAWARE / PROBLEM / SOLUTION / PRODUCT / MOST AWARE]
- Core problem: [PROBLEM]
- Desired outcome: [OUTCOME]
- Offer: [OFFER]
- Proof and constraints: [PROOF / LEGAL / BRAND]
- Channel and character limits: [CHANNEL RULES]

Build a copy system:
1. Message hierarchy and primary angle.
2. Ten headline options grouped by mechanism: pain, outcome, contrast, proof, curiosity.
3. Five primary texts with different lengths.
4. Three objection-handling blocks.
5. Five CTA options ranked by friction.
6. Two email subject lines and a three-email sequence.
7. A “do not say” list and claim-verification checklist.

For every option, label the psychological mechanism and intended awareness level.
Use clear Brazilian Portuguese in the final copy, but explain the strategic rationale in English.
Do not invent customer results, statistics, or endorsements.
```

Dica de aplicação: Peça sempre a razão estratégica de cada variação; isso facilita aprovação e aprendizagem.

02

Matriz de ângulos de headlines

Quando usar: Use para estruturar copywriting & mensagens com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a direct-response copy chief and brand messaging strategist supporting a Brazilian
marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
generate and rank headline angles by audience tension

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Headline Angle Matrix analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

03

Laboratório de nomes de ofertas

Quando usar: Use para estruturar copywriting & mensagens com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a direct-response copy chief and brand messaging strategist supporting a Brazilian
marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
name offers with clarity, distinction, and category fit

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Offer Naming Lab analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the

- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

08

Matriz de personalização

Quando usar: Use para estruturar e-mail, crm & lifecycle com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a CRM strategist and lifecycle marketing operator supporting a Brazilian marketing
executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
personalize content without inventing individual facts

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Personalization Matrix analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.

LinkedIn & marca executiva

Posicione especialistas e líderes com uma combinação de descoberta, autoridade, prova e consistência editorial.

01 Motor de autoridade no LinkedIn

Quando usar: Para transformar experiência executiva em posts com tese, prova, ponto de vista e conversa.

PROMPT · ENGLISH-US

```
Act as a LinkedIn thought-leadership editor for [EXECUTIVE], a [ROLE] in [INDUSTRY].

Source notes:
[PASTE EXPERIENCE, OBSERVATIONS, CLIENT LESSONS, DATA, AND OPINIONS]

Create a 4-week LinkedIn content system:
1. Define three durable points of view and the audience each one serves.
2. Create 12 posts: 4 insight posts, 3 contrarian takes, 2 case lessons, 2 practical frameworks, and 1 personal leadership story.
3. Each post must include: a sharp opening line, context, useful idea, concrete example, discussion question, and optional CTA.
4. Keep the voice human, precise, and executive. Avoid motivational clichés, fake vulnerability, and empty engagement bait.
5. Add a repurposing map from one long-form insight into carousel, short video, newsletter, and sales enablement asset.

Return posts in Brazilian Portuguese. After each post, add a brief English note explaining the hook, audience tension, and proof strategy.
Use only the supplied facts; mark anything that needs verification.
```

Dica de aplicação: Alimente o prompt com histórias reais e opinião própria; autoridade não nasce de texto genérico.

02

Otimizador de perfil do LinkedIn

Quando usar: Para otimizar perfil executivo, headline, About, prova social e termos de busca.

PROMPT · ENGLISH-US

```
Act as a LinkedIn positioning strategist and executive brand editor.

Optimize the profile of [NAME], who is [ROLE] and wants to be known for [POSITIONING] by [TARGET AUDIENCE].

SOURCE MATERIAL
[PASTE CURRENT PROFILE, CV, BIO, PROOF POINTS, CLIENT TYPES, AND CAREER GOALS]

Deliver:
1. Keyword and search-intent map.
2. Five headline options under 220 characters.
3. A rewritten About section with a strong first 300 characters, proof, point of view, and clear contact path.
4. Experience-section rewrites focused on outcomes, scope, and evidence.
5. Featured-section recommendations.
6. Banner and profile-photo creative brief.
7. A 30-day publishing plan aligned to the positioning.

Keep the writing human, specific, and credible. Never invent metrics, clients, titles, awards, or testimonials. Mark missing proof as [EVIDENCE NEEDED]. Return final copy in Brazilian Portuguese and explain the optimization logic in English.
```

Dica de aplicação: Anexe CV, bio, resultados comprovados, foco de mercado e exemplos de voz. Sem prova, peça placeholders explícitos.

03

Headline executivo

Quando usar: Use para estruturar linkedin & marca executiva com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a executive brand strategist and LinkedIn thought-leadership editor supporting a
Brazilian marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
write a searchable executive headline with a clear promise

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Executive Headline analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

04

Seção Sobre

Quando usar: Use para estruturar linkedin & marca executiva com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a executive brand strategist and LinkedIn thought-leadership editor supporting a
Brazilian marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
rewrite an About section around point of view, proof, and contact

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- About Section analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing

Blog & SEO orgânico

Crie conteúdo encontrável, útil e verificável — da intenção de busca ao refresh editorial.

01 Motor de blog baseado em pesquisa

Quando usar: Para criar artigos com intenção de busca, estrutura editorial, fontes e distribuição.

PROMPT · ENGLISH-US

```
Act as an SEO editor, industry researcher, and subject-matter writer for [BRAND].

Topic: [TOPIC]
Audience: [AUDIENCE]
Business goal: [GOAL]
Primary keyword: [KEYWORD]
Market and geography: [MARKET]
Sources or browsing scope: [SOURCES]

Build a research-backed article:
1. Search intent and reader job.
2. SERP-informed outline with a differentiated angle.
3. Claims inventory: claim, source, source type, date, and confidence.
4. Full article in Brazilian Portuguese with useful examples, tables, and a practical next step.
5. SEO title, meta description, H1, H2s, internal-link ideas, FAQ, and schema suggestions.
6. Distribution plan for LinkedIn, email, short video, and sales enablement.
7. Final fact-check checklist.

Do not cite sources you did not inspect. Do not make current claims without a source date. Mark
uncertainty clearly.
```

Dica de aplicação: Sempre inclua URLs e data de acesso. O modelo deve diferenciar fonte primária, secundária e opinião.

02

Arquiteto de clusters de palavras-chave

Quando usar: Use para estruturar blog & seo orgânico com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a SEO editor, organic growth strategist, and subject-matter writer supporting a Brazilian
marketing executive.

PROMPT · ENGLISH-US

```
You are a SEO editor, organic growth strategist, and subject-matter writer supporting a Brazilian
marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
create a brief that aligns SEO, expertise, and reader value

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Editorial Brief analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

10

Verificação de credibilidade de fonte

Quando usar: Use para estruturar blog & seo orgânico com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

Landing pages & conversão

Transforme intenção em ação com arquitetura, prova, microcopy, acessibilidade e uma hipótese clara de conversão.

01 Landing page que converte

Quando usar: Para criar arquitetura, copy e direção visual de uma landing page B2B.

PROMPT · ENGLISH-US

```
You are a conversion strategist, UX writer, and senior landing-page designer.

Create a complete landing page for:
- Offer: [OFFER]
- Audience: [AUDIENCE]
- Business goal: [GOAL]
- Traffic source: [SOURCE]
- Proof: [PROOF]
- Brand and visual direction: [BRAND]
- Form fields and compliance constraints: [CONSTRAINTS]

Deliver:
1. Page strategy and visitor intent.
2. Section-by-section wireframe from hero to footer.
3. Final copy in Brazilian Portuguese with headline, subhead, proof, objections, form microcopy, CTA, and FAQ.
4. Interaction and visual direction for desktop and mobile.
5. SEO title, meta description, H1, internal links, and schema suggestions.
6. Accessibility, privacy, and performance checklist.
7. A QA table mapping every claim to its evidence.

Optimize for clarity and qualified action, not hype. Keep the primary CTA singular and explain why each section exists.
```

Dica de aplicação: Peça também o “anti-brief”: o que a página não deve prometer, esconder ou complicar.

02

Seção hero

Quando usar: Use para estruturar landing pages & conversão com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Form Field Optimizer analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

05

Arquitetura de confiança

Quando usar: Use para estruturar landing pages & conversão com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a conversion strategist, UX writer, and landing-page designer supporting a Brazilian
marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
place proof, risk reducers, and reassurance at the right moments

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Trust Architecture analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every

E-books & materiais editoriais

Produza guias, white papers, relatórios e estudos que tenham tese, evidência, utilidade e acabamento executivo.

01 Produção de e-book executivo

Quando usar: Para transformar conhecimento em e-book, white paper ou guia executivo pronto para diagramar.

PROMPT · ENGLISH-US

```
Act as an editorial director, subject-matter researcher, and information designer.

Create an executive e-book about [TOPIC] for [AUDIENCE].

Editorial requirements:
- Business objective: [OBJECTIVE]
- Desired length: [PAGES / WORD COUNT]
- Tone: [TONE]
- Evidence and sources: [SOURCES]
- Brand system: [BRAND]
- Desired CTA: [CTA]

Process:
1. Define the promise, reader transformation, and editorial thesis.
2. Build a chapter outline with learning objective, key argument, proof, example, and action per chapter.
3. Draft the full text in Brazilian Portuguese.
4. Add tables, checklists, frameworks, callout boxes, and “next action” moments.
5. Add citations or source notes close to the claims they support.
6. Create a production brief for cover, chapter openers, diagrams, and charts.
7. End with a page-by-page QA checklist for accuracy, hierarchy, readability, accessibility, and export-to-PDF quality.

Do not pad the document. Flag [SOURCE NEEDED] wherever a claim lacks support.
```

Dica de aplicação: Se a ferramenta gerar o arquivo, mantenha o prompt de QA separado para revisar paginação, fontes e fontes bibliográficas.

02

Estrutura de white paper

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

10

Upgrade de conteúdo

Quando usar: Use para estruturar e-books & materiais editoriais com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a editorial director, researcher, and information designer supporting a Brazilian
marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
turn a long asset into checklists, templates, and worksheets

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Content Upgrade analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

Imagem & direção visual

Descreva assunto, composição, material, luz, lente, efeito e restrições para gerar imagens consistentes com a marca.

01 Imagem premium de campanha

Quando usar: Para imagem de campanha, hero de site, key visual ou anúncio com controle de composição.

PROMPT · ENGLISH-US

```
Create a premium advertising image for [BRAND / PRODUCT] targeting [AUDIENCE].

SUBJECT
[Describe the exact subject, action, material, and visual hierarchy.]

COMPOSITION
- Format: [ASPECT RATIO]
- Camera angle: [ANGLE]
- Framing: [CROP / NEGATIVE SPACE]
- Focal point: [FOCAL POINT]
- Leave clean negative space on [LEFT / RIGHT / TOP] for headline placement.

VISUAL DIRECTION
- Art direction: [EDITORIAL / DOCUMENTARY / FUTURIST / MINIMAL / LUXURY]
- Lighting: [LIGHT SOURCE, QUALITY, DIRECTION]
- Palette: [COLORS]
- Materials and textures: [MATERIALS]
- Lens and depth: [LENS, DEPTH OF FIELD]
- Motion or atmosphere: [ATMOSPHERE]

BRAND AND SAFETY
Use a refined, believable visual language. Preserve realistic proportions and coherent shadows.
Avoid unreadable text, fake logos, watermarks, duplicated objects, extra fingers, distorted
products, generic stock-photo smiles, and visual clutter.

OUTPUT
Return one production-ready image direction and three controlled variations that change only one
variable each: composition, lighting, and art direction.
```

Dica de aplicação: Mude apenas um bloco por iteração: enquadramento, luz, material, cor ou atmosfera. Isso acelera a aprendizagem visual.

02

Cena de produto com efeitos controlados

Quando usar: Para produto, mockup, social ad e criativo de performance com efeitos visuais consistentes.

PROMPT · ENGLISH-US

```
Create a high-end commercial product scene using the supplied reference image of [PRODUCT].

IDENTITY LOCK
Preserve the exact product shape, label hierarchy, colors, logo placement, proportions, and
distinctive details. Do not redesign the product.

SCENE
- Environment: [ENVIRONMENT]
- Surface: [SURFACE]
- Supporting objects: [OBJECTS]
- Mood: [MOOD]
- Audience and campaign promise: [AUDIENCE / PROMISE]

EFFECTS
- Primary effect: [REFLECTION / SPLASH / SMOKE / LIGHT TRAIL / PARTICLES / SHADOW]
- Physical behavior: make the effect obey gravity, light direction, scale, and material
interaction.
- Lighting: [KEY LIGHT] plus [FILL / RIM LIGHT].
- Camera: [LENS], [ANGLE], [DEPTH OF FIELD].

LAYOUT
Use [ASPECT RATIO] and keep [PERCENTAGE]% uncluttered negative space for copy. The final image
must feel like a real premium campaign photograph, not a generic AI illustration.

NEGATIVE CONSTRAINTS
No altered packaging, no invented text, no extra products, no floating objects without physical
logic, no watermark, no low-resolution edges, no oversaturated gradients.
```

Dica de aplicação: Use imagem de referência e especifique o que não pode mudar: identidade, embalagem, proporção, cor e marca.

03 Briefing de direção de arte

Quando usar: Use para estruturar imagem & direção visual com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

Vídeo, motion & storytelling

Planeje planos, ação, ritmo, transições, som e safe zones antes de pedir um vídeo final.

01

Storyboard de anúncio curto

Quando usar: Para Reels, TikTok, Shorts, anúncios verticais e vídeos de produto com foco em retenção.

PROMPT · ENGLISH-US

```
Act as a commercial film director and performance creative strategist.

Create a 20-second vertical video ad for [BRAND / OFFER] targeting [AUDIENCE].

OBJECTIVE
[BUSINESS OBJECTIVE]

RETENTION LOGIC
Design a visual or verbal pattern interrupt in the first 1.5 seconds. Build one clear tension,
demonstrate the value, and finish with one action.

STORYBOARD
For each shot, specify:
- Timecode and duration
- Shot size and camera movement
- Subject action and facial/body direction
- Environment, lighting, color, and texture
- On-screen text in Brazilian Portuguese
- Voiceover or natural sound
- Transition and edit rhythm
- What the viewer should understand

PRODUCTION RULES
Keep the product identity consistent across shots. Avoid impossible physics, random wardrobe
changes, unreadable captions, and visual elements that compete with the CTA. Design captions for
safe zones and sound-off viewing.

OUTPUT
Return three versions: direct-response, brand-building, and founder-led. Include a shot list,
voiceover, captions, thumbnail concept, and QA checklist.
```

Dica de aplicação: Gere primeiro o storyboard e só depois o vídeo. Isso reduz retrabalho e deixa claro o papel de cada plano.

02

Direção de efeitos de motion

Quando usar: Para pedir efeitos visuais de câmera, partículas, morphing, transitions e product reveal com controle.

PROMPT · ENGLISH-US

```
Design a motion-effects treatment for a [DURATION]-second brand film about [SUBJECT].

VISUAL ARC
1. Start with [INITIAL STATE].
2. Introduce [TRIGGER / FORCE].
3. Transform the scene through [EFFECT].
4. Reveal [PRODUCT / MESSAGE].
5. End on [FINAL FRAME / CTA].

For every beat, define:
- Camera path, focal length, and speed
- Subject motion and timing
- Particle, light, liquid, fabric, smoke, or typography behavior
- Material interaction and shadows
- Color and contrast evolution
- Transition logic
- Sound-design cue

The effect must support the message, remain physically coherent, and preserve brand readability.
Keep the hero object stable and recognizable.

Return a concise creative treatment, a shot-by-shot table, an editor's timing guide, and a list
of effects that should be avoided because they distract from the business objective.
```

Dica de aplicação: Descreva o efeito por causa e consequência: o que inicia, como se move, com que luz interage e onde termina.

03

Conceito de vídeo

Quando usar: Use para estruturar vídeo, motion & storytelling com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a commercial film director, motion designer, and performance creative strategist
supporting a Brazilian marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
turn a business objective into a filmable visual concept

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Video Concept analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

04

Gancho para Reels

Quando usar: Use para estruturar vídeo, motion & storytelling com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a commercial film director, motion designer, and performance creative strategist
supporting a Brazilian marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
design the first seconds for attention and retention

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Reels Hook analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

05

Vídeo do fundador

Quando usar: Use para estruturar vídeo, motion & storytelling com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a commercial film director, motion designer, and performance creative strategist
supporting a Brazilian marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
shape a founder-led story with credible authority and warmth

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Founder Video analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the

06

Roteiro explicativo

Quando usar: Use para estruturar vídeo, motion & storytelling com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a commercial film director, motion designer, and performance creative strategist
supporting a Brazilian marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
explain a complex product through a simple visual narrative

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Explainer Script analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

07

Plano de B-roll

Quando usar: Use para estruturar vídeo, motion & storytelling com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a commercial film director, motion designer, and performance creative strategist
supporting a Brazilian marketing executive.

4. Success metrics and measurement method.
5. Timeline and governance.
6. Investment structure with assumptions and optional modules.
7. Explicit exclusions, risks, and change-control rules.
8. Next steps and approval checklist.

Write in clear Brazilian Portuguese with an executive tone. Avoid generic agency language, invented case studies, and unverified outcomes.
Return both a client-facing version and an internal delivery-risk review.
```

Dica de aplicação: Faça a IA explicitar o que não está incluído; isso protege margem e reduz desalinhamento.

02

Preparação de discovery call

Quando usar: Use para estruturar vendas, propostas & enablement com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a senior solutions consultant and commercial enablement strategist supporting a Brazilian
marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
prepare questions, hypotheses, and listening goals for discovery

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Discovery Call Prep analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

03 Apresentação comercial

Quando usar: Use para estruturar vendas, propostas & enablement com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

Automação & operações

Desenhe automações com gatilho, dados, decisões, aprovação humana, exceções, logs e rollback.

01 Blueprint de automação de negócios

Quando usar: Para desenhar automações de marketing e operações que ferramentas como Skywork, Manus, Claude ou Abacus possam executar.

PROMPT · ENGLISH-US

```
You are an automation architect for a marketing organization.

Process to improve: [PROCESS]
Current tools: [TOOLS]
People involved: [ROLES]
Inputs and outputs: [INPUTS / OUTPUTS]
Business goal: [GOAL]
Compliance and risk constraints: [CONSTRAINTS]

Design an implementation-ready automation:
1. Map the current process and identify waste, delay, and error points.
2. Define trigger, data contract, transformation steps, decision rules, human approvals,
exception paths, and final handoff.
3. Recommend where an AI agent, deterministic automation, template, or human should be used.
4. Create the exact prompts and structured fields for each AI step.
5. Define permissions, logging, QA, rollback, and failure alerts.
6. Estimate time saved and the first measurable success criterion.

Return a process diagram in text, a RACI table, step-by-step implementation plan, test cases, and
operating instructions in Brazilian Portuguese.
Never recommend autonomous action for irreversible, financial, legal, or customer-facing changes
without human approval.
```

Dica de aplicação: Descreva o gatilho, os dados, a decisão, o handoff e a exceção. Automação sem exceção vira risco operacional.

02

Mapa de processo

Quando usar: Use para estruturar automação & operações com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a marketing automation architect and AI operations designer supporting a Brazilian
marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]

- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
handle missing data, failures, edge cases, and escalations

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- Exception Playbook analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
browsing or source material is unavailable, write [SOURCE NEEDED]. Keep the final business-facing
copy in Brazilian Portuguese unless the requested channel requires another language. Make the
result useful for a human team using Skywork, Manus, Claude, Abacus, or a comparable AI workflow.
```

Dica de aplicação: Preencha os campos entre colchetes com dados reais. Exija fontes, marque lacunas e aprove manualmente qualquer decisão de alto impacto antes de publicar.

08

Automação no-code

Quando usar: Use para estruturar automação & operações com uma saída que possa ser revisada, aprovada e aplicada pelo time.

PROMPT · ENGLISH-US

```
You are a marketing automation architect and AI operations designer supporting a Brazilian
marketing executive.

BUSINESS CONTEXT
- Company, product, or initiative: [COMPANY / INITIATIVE]
- Business objective and decision required: [OBJECTIVE / DECISION]
- Audience, market, and funnel stage: [AUDIENCE / MARKET / STAGE]
- Channel, format, and deadline: [CHANNEL / FORMAT / DEADLINE]
- Evidence, source material, and current performance: [EVIDENCE]
- Brand, legal, budget, and operational constraints: [CONSTRAINTS]

FOCUS
design a safe automation using available no-code tools

METHOD
1. Restate the business problem, desired outcome, and decision in one concise paragraph.
2. Separate verified facts, reasonable inferences, assumptions, and [DATA GAP] items.
3. Apply a suitable marketing framework, explain why it fits, and show the key trade-offs.
4. Develop the solution in sequenced steps, prioritizing actions that create evidence quickly.
5. Make every recommendation specific to the audience, market, channel, and operating
constraints.
6. Add owners, dependencies, success measures, risks, and a clear next action.

OUTPUT
Return a decision-ready Markdown deliverable with:
- Executive summary
- Working assumptions and evidence table
- No-code Automation analysis or deliverable
- Prioritized recommendations
- Implementation checklist
- Measurement and learning plan
- Risks, approvals, and unresolved questions

QUALITY GATE
Do not invent facts, metrics, sources, customers, awards, or performance claims. Cite every
external source with publisher, URL, publication date, and access date when available. If
